

Varadsingh Pardeshi

+91-9850893927; varadsingh@hotmail.com; Pune

Profile Summary

- **13 years** of IT experience across 8 employers in **Data Engineering, ETL, Data Warehousing, and BI Reporting**.
- Delivered automation saving 7 FTE across 2 roles; reduced MTTR by 60% and led an 8-member data migration team.

Academic Credentials

- | | |
|---|-----------------------|
| • PG Diploma in Data Science IIIT – Bangalore CGPA 3.45/4 | May 2017 – July 2018 |
| • BTech In Computer Science VJTI – Mumbai University CGPA 7.1/10 | June 2009 – June 2013 |
| • 10+2 HSC 82% | June 2007 – June 2009 |
| • 10th ICSE 80% | June 2006 – June 2007 |

Work Experience

Associate Vice President, **Citi Bank**, Pune

July 2025 – Present

- Client: Self
 - Maintain Python backends and BAU dashboards supporting Risk and Reporting operations.
 - Led Talend-to-Python ETL migration with 100% accuracy and successful completion.
 - Led Apache Ignite-to-Oracle (ORaaS) data migration as part of 3 migration initiatives.
 - Built an end-to-end Python application with API support to migrate Oracle data to ORaaS.

Senior Cloud Engineer, **Snowflake**, Pune

February 2025 – July 2025

- Client: Multiple
 - Designed and maintained Snowflake pipelines integrating Salesforce and other business systems for multiple clients.
 - Built SQL and dbt transformations to deliver reliable datasets for reporting and analytics.
 - Managed end-to-end data integration, monitored pipeline performance, and resolved load failures.
 - Earned SnowPro Core Certification.

Senior Technical Consultant, **KetteQ**, Pune

October 2022 – February 2025

- Client: Multiple
 - Developed Talend data migration solutions for multiple clients.
 - Automated recurring API calls and scheduled data loads using Mage.
 - Built custom Salesforce pipelines and managed end-to-end data integration.
 - Technologies: SQL, AWS (S3, CloudWatch, Lambda), Talend, Python, ClickHouse, Snowflake, dbt, and Mage.

Consultant, **TIAA GBS**, Mumbai

June 2021 – October 2022

- Client: TIAA
 - Supported production ETL jobs using PySpark, DataStage, Oracle, and UNIX.
 - Monitored daily ETL flows and maintained production data loads.
 - Managed ETL execution against client SLAs.
 - Built request-handling automation that reduced mean time to resolution (MTTR) by 60%.
 - Resolved data incidents and service requests, coordinating recovery from processing delays.
 - Technologies: AWS, Snowflake, PySpark, DataStage, Oracle SQL Developer, UNIX, and Python.

Consultant, **Deloitte USI**, Mumbai

July 2019 – June 2021

- Client: US Health Care Provider
 - Developed end-to-end ETL jobs using PySpark and Airflow for a US healthcare provider.
 - Automated recurring daily operations using Python.
 - Validated reporting consistency across 2 BI platforms: Cognos and Tableau.
 - Compared source files early in the ETL flow to reduce downstream validation effort.
 - Built a Django application for ticket management and deployment.
 - Technologies: PySpark, AWS, Airflow, Glue, Oracle SQL Developer, UNIX, and Python.

- Client: European Insurance Provider
 - Tested 2 application areas end to end: AWS ETL pipelines and the Accounting Sub Ledger (ASL).
 - Automated execution of time-consuming test queries using Python, reducing manual testing effort.
 - Technologies: MS SQL Server Management Studio, AWS, Python, and JIRA.

Sr. Software Developer, **LTI**, Mumbai

February 2018 – July 2019

- Client: Nordic Financial Service Provider
 - Built real-time ingestion for 2 log formats, JSON and XML, using Kafka and PySpark.
 - Maintained DataStage data quality workflows and implemented new business requirements.
- Client: French Water Management Company
 - Migrated ETL builds between 2 platforms: Cognos Data Manager and DataStage.
 - Coordinated tasks and iterative deliveries with a 20-member team.
 - Created Oracle hierarchies to represent activity trees.

Consultant, **Capgemini**, Mumbai

October 2016 – January 2018

- Client: Nordic Financial Service Provider
 - Supported DataStage jobs for the Sales Performance Management (SPM) module and met all assigned targets.
 - Worked with Teradata as the primary client database for SPM support.
 - Automated KPI dashboards using Excel and VBA, saving 5 FTE and enabling managers to focus on priority issues.

Data Specialist, **IBM**, Kolkata

September 2013 – September 2016

- Client: Multinational Tobacco Firm
 - Developed DataStage jobs to extract data from multiple SAP sources and load an SAP target.
 - Automated Excel data profiling using VBA, saving 2 FTE.
 - Led an 8-member team delivering data migration with Cransoft DSP and met all migration SLAs.

Key Skills

- **Primary Skill Set:** Data Engineering - Python, SQL, PySpark, DataStage, Talend, and UNIX.
- **ETL Tools:** DataStage, Talend, and AWS Glue.
- **Databases:** Microsoft SQL Server, Oracle, Teradata, ClickHouse, and Snowflake.
- **Orchestration and Transformation:** Mage, Airflow, and dbt.
- **CI/CD:** Jenkins
- **Cloud Skills:** AWS - S3, Redshift, Glue, Lambda, EC2, and CloudWatch.
- **Languages:** Python
- **Machine Learning:** Logistic and Linear Regression, SVM, Random Forest, Decision Tree, Naïve Bayes, KNN, and K-Means.
- **Big Data Technologies:** Hadoop, Hive, Sqoop, Flume, PySpark, and Kafka.
- **Visualization tools:** Tableau, Cognos, and Excel.
- **Others:** Excel and VBA Programming

Accolades

- Received the **IBM Orion Award** for putting the client first.
- Received 3 additional IBM awards: **Deep Skill Award**, **Manager's Choice Award**, and **Innovation Recognition Award**.
- Received the **Project Star Award** at Capgemini.
- **Certificate of Appreciation** for helping conduct interviews for Analytics BU at LTI.
- **Certificate of Recognition** for unit testing automation that reduced manual effort at Deloitte USI.
- **Appreciated at TIAA** for automation that reduced request MTTR by 60%.
